Illuminate Series

AR-725-U/P/R/N

RFID Card Reader / Writer / Programmer

(Wall-mounted Type)

(Desktop Type)

Desktop and Wall-mounted Installation Design For Various Application

In addition to desktop type, the wall-mounted type is available for multiple style choices.

Support WIN XP, WIN 7, WIN10

Support multi operation system, improve the compatibility and convenience

Support NFC

NFC communication device, contactless point-to-point data transmission

Support MIFARE / DESFire

Supports multiple card formats including MIFARE, DESFire, ISO14443A, ISO15693 and so on

Features

LED Status Indicator

Support Multiple Operation Modes

Watchdog

Support NFC

USB-HID Plug&Play free of driver installation

AR-725-U-USB / AR-725-U-232/485 features

- Support Serial Port Communication Read/Write
- USB interface, only need to install USB Driver to use

AR-725-P features

- Support Mifare read and write encryption, anti-cloning solution to improve safety
- Taiwan Utility Patent : SOYAL Open System Rules (SOR), Patent Number: I 365414

AR-725-N features

- USB-HID Plug&Play free of driver installation
- Quickly register card UID number in Text or Excel files.

AR-725-R features

- USB-HID Plug&Play free of driver installation
- Suitable for 701Client quick card registration procedure

APPLICATION & STRUCTURE DIAGRAM

AR-725-U-USB

POS Machine Management
Support Serial Port Communication Read/Write

Full model no.	Communication	Interface	Frequency	Installation	Function Details
AR-725-UDX8NL1-USB AR-725-UDX1NL1-485 AR-725-UDX2NL1-232	USB COM Port Simulation Mifare Reader	USB / RS232 / RS485	13.56MHz	USB Driver	USB Mifare reader, used for transfer card UID only

AR-725-P

Support Standalone Stored-Value Deduction and Payment System
Choose value type of money, points, or time according to requirement, directly link to printer to print the real-time transaction receipt (this function required to be updated with special firmware)

Full model no.	Communication	Interface	Frequency	Installation	Function Details
AR-725-PDX8NL1	USB COM Port Simulation Mifare Programmer	USB	13.56MHz (Using for Encryption, Mifare only)	USB Driver	Mifare Encryption, for SOR (Soyal Open system Rules)

AR-725-R

Quick Register User Card with SOYAL 701Client Software
In 701 Client when configuring user's data, with USB Card Reader (AR-725-R) adding card number will be quicker, moreover it support EM (125kHz), Mifare, Desfire, and Ultra Light card format.

Full model no.	Communication	Interface	Frequency	Installation	Function Details
AR-725-RSX8NL1	HID (Human Interface Device) only for 701Client	USB	125kHz + 13.56MHz	Plug & Play	Quick RFID tags enrollment reader on 701Client software

AR-725-N

HID (Human Interface Device) Management / Machine Management
Quickly register card UID number in Text or Excel files.

Full model no.	Communication	Interface	Frequency	Installation	Function Details
AR-725-NSX8NL1	HID (Human Interface Device) Keyboard Simulation	USB	125kHz + 13.56MHz	Plug & Play	Keyboard simulation, quick RFID card enrollment in TXT and excel document
